## Setting up you email on a cell phone

You will need your incoming mail server, outgoing mail server, full email address, and your email password. The default settings are listed below.

In *Settings* on your phone, select *Mail* 

- Then select *Accounts*
- Then Add Account
- Select *Other* 
  - Select Add Mail Account
  - Name is what you want others to see when they receive email from you
  - Enter your email address name@hope-reimagined.com
  - Enter <u>your</u> **password**
  - **Description** is how it will be listed on your phone. We recommend you re-enter your email address here.

When you click **Next**, you will be presented the following:

### **Incoming Mail Server**

- Host Name is *imap.startlogic.com* (that is the server that we use)
- User Name is your email address name@hope-reimagined.com
- Enter <u>your</u> password

### **Outgoing Mail Server**

- Host Name is *smtp.startlogic.com* (that is the server that we use)
- User Name is your email address name@hope-reimagined.com
- Enter <u>your</u> password

### Then click Next

Click on the **name of the account** 

Then click on **Advanced Settings** and you will see the information below as an example:

Be sure to slide the button to the left to turn off SSL (ios) or do NOT select SSL from the menu (Android) DO <u>NOT</u> SET THIS AS A SECURE (SSL) SERVER.

Note the Port Addresses below, as they may need to be manually entered:

I. Go to Settings, Mail, Add Account.	
2. Select Other.	
5. Tap Add Mail Account.	
Enter the following settings when prompted:	
Name	Your name (eg: John Smith)
Email	
	name@hope-reimagined.com
Password	Your mailbox password
Description	IMAP Account
Manual setup	
Co to Settings Mail Add Account	
2. Select Other.	
5. Tap Add Mail Account.	
. Enter the following settings when prompted:	
Name	Your name (eg: John Smith)
Name Email	Your name (eg: John Smith)
Name Email Password	Your name (eg: John Smith) name@hope-reimagined.com Your mailbox password

Once you've done these, you are finished. Your email has successfully added.

# Setting up your email with Outlook 2016 and Microsoft 365?

You will need your incoming mail server, outgoing mail server, full email address, and your email password. The default settings are listed below.

- 1. Open Outlook 2016 or Microsoft 365.
- 2. Select File.

- 3. Click on Add Account.
- 4. Enter the email address in the box. Click **Advanced Options** and check the box for "*Let me set up my account manually*."

- 5. Click the **Connect** button.
- 6. Choose **POP** or **IMAP**. IMAP synchronizes the email on your computer with the contents of your account on the server, while POP simply downloads the inbox. (The choice is yours, as either method works well.)

- 7. Fill in the following information depending on the protocol you chose in Step 6:
  - 1. **POP** 
    - Your Name: The name to display on your email. (e.g. HOPE Reimagined)
    - Email Address: Your full email address (e.g. help@hope-reimagined.com)
    - Account Type: POP
    - Incoming Mail Server: pop.startlogic.com
    - Outgoing Mail Server (SMTP): smtp.startlogic.com
    - User Name: Your full email address (e.g. help@hope-reimagined.com)
    - **Require logon using Secure Password Authentication (SPA):** We recommend having this *unchecked*
    - Incoming Server (POP Port): 110
    - This server does NOT require an encrypted connection (SSL/TLS) (Incoming): Optional. (If checked, change Incoming Server (POP Port) to 995.) Keep the SSL turned off and the setting to 110
    - Outgoing Server (SMTP Port): 587
    - Encryption method (Outgoing): This server does NOT require an encrypted connection - Optional. If using SSL, change the Outgoing Server (SMTP Port) to 465 We recommend leaving this as 587 without SSL.

- **Password:** Your email password (Use the one that we assigned to you)
- 2. **IMAP** (If you used the POP instructions above, you are done setting up the email on your computer) Use these instructions if you chose not to use POP to connect
  - Your Name: The name to display on your email. (e.g. Joe at HOPE Reimagined)
  - Email Address: Your full mailbox address (e.g. name@hope-reimagined.com)
  - Account Type: IMAP

- Incoming Mail Server: imap.startlogic.com
- Outgoing Mail Server (SMTP): smtp. startlogic.com
- User Name: Your full email address (e.g. name@hope-reimagined.com)
- **Password:** Your email password (Use the one we assigned to you)
- **Require logon using Secure Password Authentication (SPA): NO** We recommend having this *unchecked*
- Incoming Server (IMAP Port): 143
- This server does NOT require an encrypted connection (SSL/TLS) (Incoming): Optional. (If checked, change Incoming Server (IMAP Port) to 993) Keep the SSL turned off and the setting to 143
- Outgoing Server (SMTP Port): 587
- Encryption method (Outgoing): Optional. This server does NOT require an encrypted connection - If using SSL, change the Outgoing Server (SMTP Port) to 465 – We recommend leaving this as None. Keep the SSL turned off and the setting to 587

Notice the checkbox for those tech-savvy people who want to set up the email to flow into their mobile phone, as well.

Then our mail server will send an email (see below) to the new account to provide links to help you access the account from other computers using Roundcube (such as when using a hotel courtesy computer), your mobile device (cell phone or tablet), and auto-forwarding instructions. If you still have questions, send an email to <a href="mailtosupport@hope-reimagined.org">support@hope-reimagined.org</a> and we will provide you with assistance.

Congratulations! Your new mailbox is ready to go!

We understand that email is an important part of your online presence. That is why we want to help you get the most of your email experience. Click on one of the links below to learn more:

Introduction to Roundcube Roundcube is our top webmail solution to help you manage your email. You can check messages, write email, and manage various aspects of your webmail experience through Roundcube's online interface.

How do I connect to my mailbox to an email client or mobile device? Learn how to connect your email to your mobile device or an email client.
